

INTELLECTUAL PROPERTY LAW

Contact Practice Group Chair Larry Meier.

DRM provides a full range of patent-related legal services, including strategic patent counseling, patent preparation and prosecution, product clearance and other opinion work, patent licensing and other agreement work, and patent litigation. Our experienced and dedicated attorneys assist clients in protecting, leveraging, enforcing and defending their valuable inventions and patent rights across a wide range of fields, including automotive, chemistry, financial, healthcare, medical devices, microelectronics, nanotechnology, optics and optoelectronic devices, software and computer systems, telecommunications, turbomachinery and toys, to name a small set.
