

## INTELLECTUAL PROPERTY LAW

Every year, DRM prepares, prosecutes and maintains hundreds of patent applications and patents in the U.S. and abroad. Our services include:

- Strategic advising with regard to patent protection in the U.S. and abroad.
- Preparing patent applications.
- Filing and prosecuting patent applications in the U.S. Patent and Trademark Office.
- Filing international patent applications in the relevant offices of the World Intellectual Property Organization.
- Filing and prosecuting patent applications in foreign patent offices using our worldwide network of foreign patent associates.
- Maintaining U.S. and foreign patents and applications.
- Acting as a U.S. "foreign" associate for clients based outside the U.S. for purposes of filing, prosecuting and maintaining U.S. patent documents with the U.S. Patent and Trademark Office.
- Assisting clients in developing and implementing invention disclosure programs to make the patenting process more efficient and effective.

Further information regarding patent preparation and prosecution in the U.S. is available in the article [Basics of Patenting An Invention in the United States](#). For further assistance, contact Practice Group Chair Larry Meier.

Related services include strategic patent counseling, patent opinion services, transactional services, and patent litigation services.
